

# AE Corporate Affiliates Program (CAP)

## Top Ranked Programs

# #1

**UNDERGRADUATE PROGRAM**

(U.S. News & World Report, 2022)

# #4

**GRADUATE PROGRAM**

(U.S. News & World Report, 2023)

## Engineering Scholars

# 1,100

Undergraduate students

# 850

Graduate students

## Hands on Experience

# 80%

of AE undergrads have been involved in research before graduation

# 69%

of AE undergrads have interned

# 31%

of AE undergrads have studied abroad

# 74%

of AE undergrads achieved "honors" standing

## Cutting Edge Research

- Computational & Experimental Fluid Dynamics
- Cyberphysical Systems, Safety, Security, & Reliability
- Large-Scale Computations, Data, & Analytics
- Mechanics of Multifunctional Structures and Materials
- Robotics, Autonomy, & Human Interactions
- Space Exploration and Earth Monitoring
- Sustainable Transportation & Energy Systems
- System of Systems & Complex System Integration
- Vertical Lift and Urban Air Mobility

## Student Organizations

- Aero Afro Astro
- American Institute of Aeronautics and Astronautics (AIAA)
- GT Motorsports
- GT Off-Road Club
- Ramblin' Rocket Club
- School of Aerospace Engineering Student Advisory Council
- Sigma Gamma Tau
- Students for the Exploration and Development of Space (SEDS)
- Vertical Flight Society (VFS)
- Women of Aeronautics and Astronautics
- Yellow Jacket Flying Club
- Yellow Jacket Space Program
- Yang Aero Maker Space

## Message from the AE School

A major goal of the school is to train the best and brightest students in the world to prepare them as leaders in industry, government, and academia.

The Corporate Affiliates Program (CAP) is designed to connect corporations with this diverse pool of aerospace engineering students at all degree levels.

CAP partners gain access to a wide range of recruitment activities such as the AE Career Fair and Day in the Lobby, and through year-round signature initiatives such as the Mentors-In-Residence program. Additionally, CAP partners receive brand recognition that strengthen the company's position as a top choice for Georgia Tech Aerospace Engineering students who are looking for internships, co-ops, and full-time employment.

Most CAP benefits are customizable. A dedicated member of our team will work one-on-one with each of our CAP partners to help them get the most out of the collaboration. Your gift to this program supports our AE students in a way that further strengthens their training in ways directly relevant to individual corporate needs.

We look forward to partnering with you.

**Joseph Oefelein**

Professor and Associate Chair for Undergraduate Programs

# AE Corporate Affiliates Program (CAP)

## TIER 1: GOLD \$5,000

### AE School Career Fairs

Fall AE Career Fair  
Spring AE Career Fair

### Day in the lobby

Spend a day in the lobby of the aerospace engineering building and meet with AE students

### Invitation to participate in select career development events

### Interview space on campus to meet 1:1 with students

### Preferential posting of jobs and internships in AE newsletter

### Company listed on AE website

### Recognition as corporate partner at AE School Career Fair

### Invitation to Corporate Partner Summit

Premier opportunity to network and exchange ideas with industry partners, AE faculty/leadership, and AE students

### Invitation to Mentors-in-Residence Program

Serve as mentor to AE undergraduate and graduate students

### Information Session (virtual or in-person)

Provide AE students with an overview of company and share employment opportunities

### One custom engagement opportunity

Work with corporate relations liaison to create a unique engagement opportunity beyond the standard offerings

### Dedicated point of contact for coordinating with AE student groups

### Invitation to AE Brown Bag Series

Attend a Brown Bag to learn about the research that AE undergraduate and graduate students are doing

### Premier placement at AE School Career Fairs

### Consultation with corporate relations liaison to develop company specific engagement strategy
